About Main Street Matters

Benjamin Moore launched *Main Street Matters* in May 2013 as a commitment to revitalizing Main Streets across North America. It's a symbol of our commitment to the incredible dealer network and to the communities that have supported our success for the past 130 years. Twenty cities were selected through an online voting contest and the projects will be underway until its completion in June 2014. For additional information, please visit paintwhatmatters.com.
