

2015 Curbside Recycling Report

The percent of curbside garbage recycled has increased as much as 7.8% since the beginning of the community education effort on garbage recycling. There were 435.3 more tons of garbage recycled in 2015 than when the education program started in January. The increased recycling results will save the City an estimated \$14,386 in tipping fees. During 2015 recycling has increased 2.7%, on average we are recycling 29.5% of all curbside garbage, this is 21% of our goal to recycle 40% of our curbside garbage tonnage.
