

WSCS CAMERA OPERATOR

Job Description:

Under the direction of the WSCS Director the camera operator assists in video productions both in the studio and on location productions. Studio productions require studio set and microphone setup time. Location productions require setup and break down of video production equipment. The main responsibility is to provide good quality video for the overall production.

Typical Duties:

1. Assist director in WSCS studio during pre-post production time.
2. Connecting audio cables and placement of microphones.
3. Assisting with guests needs and going over time Qs with host.
4. Assist director and WSCS staff during location pre-production, which includes equipment set-up, camera, cables, tripods, audio cables and mics.
5. Follow director's commands for camera shots.
6. Assist in equipment take down after productions.
7. Able to work alone for single camera productions.

Requirements:

1. Reliable and on time for scheduled productions.
2. Able to listen and follow director's camera commands.
3. Able to lift 50 pounds of video equipment.
4. Valid Driver's License.
